FYI Luisa and Alec, here's the updated digitalization material from Mark. I'll be carving out time to review over the next day or so.

**Subject:** Digitalization clean up

Hi guys:

Ok, here we go: Here's a cleaned up version of the digitalization paper and its graphics reflecting Patrick's good edit. Also attached is the web content which is too long; please tell me which graphics and verbiage might go.

Let me know if these items should be transmitted also via Salesforce.

I also would like to spruce up the title as I learned someone had already used my favorite, "Get with the Program." Got any ideas along those lines?

Ok, thanks all.
